***Dear Parents,***

***Summer vacations are a wonderful time for children to relax, refresh and explore new interests. It is also the perfect opportunity to develop creativity, learn new skills, and enjoy meaningful experiences.***

***Keeping this in mind, we have thoughtfully designed the holiday homework to make learning enjoyable and productive. These activities will help build confidence, creativity and independent thinking among students.***

***The cheerful summer days bring joy, fun and memorable moments with friends and family. Along with enjoyment, children should also continue learning through observation, exploration and creative activities. By balancing fun with learning, they can grow into confident and responsible individuals.***

***“Intelligence is the ability to adapt.”***

***The summer assignments have been carefully prepared to encourage curiosity, creativity and the spirit of “Learning by Doing.” Students are encouraged to complete their work neatly and present it creatively.***
